Quarries

Simtas[®] Marble Co. and a number of others together with the owners; providing a total control over the production process, resulting in a strict quality control with large quantities and reliable services.

While continuing the production in beige marble quarries, Simtas[®] Marble Co. is carrying out substructural production activities on other quarries, particularly of white, grey and trendy colors.

Research activities for new reliable sources of exportable stones are carefully implemented by the professional quarry management teams of Simtas[®] Marble Co.

We have not only been operating our own quarries, but also others under our supervision; so as to have an utmost control on all the processes for the quality and conformity.
